

“Find our more about the botanical extracts we use”

Extra-virgin olive oil from Tuscany* (*Olea europaea*): Only machine pressed. A noble oil rich in unsaturated fatty acids, unsaponifiables, and polyphenols. Highly moisturizing, nourishing, antioxidant, and anti-aging.

Sunflower oil* (*Helianthus annuus* seed oil): Only machine pressed from oil seed without using solvents. Rich in unsaturated fatty acids (oleic, linoleic), minerals, and anti-oxidant E vitamins. Nourishes and restores elasticity to the skin to prevent aging.

Sweet almond oil* (*Prunus amygdalus dulcis* oil): Only machine cold pressed. Rich in oleic and linoleic acid. Moisturizing, nourishing, and boosts elasticity.

Calendula oil* (*Calendula officinalis* flower extract, *Helianthus annuus* seed oil): Obtained by macerating the flower heads in organic sunflower seed oil. Rich in triterpenic esters, carotenoids, and flavonoids. Both the oil and plants come from organic farming. It helps soothe, restore, and regenerate the skin.

Coconut oil* (*Cocos nucifera* oil): Obtained by pressing the coconut meat. It is rich in saturated fatty acids, especially lauric acid, which is very good for the skin. It is nourishing and soothing to dry, arid skin. Once metabolized, the lauric acid produces substances that are anti-septic and anti-microbial.

*Certified organic

Our soap does not contain palm oil or its derivatives.
